

## Late-breaking Abstract Submission of KCR 2022

KCR 2022 invites you to submit late-breaking abstract, which will be open from February 21(Mon) to March 21(Mon). Take advantage of the extra period of abstract submission and add your academic insight to KCR 2022.

KCR 2022 will be abundant with the recent studies and active discussions in the field of rheumatology, eliminating the limit of distance and place by going hybrid followed by the last year. We would like to welcome all interested scientists and researchers to be more actively engaged by submitting abstracts and share their knowledge.

Late-breaking Abstract Submission Period
February 21(Mon) – March 21(Mon), 2022

Accepted late-breaking abstracts may configure a unique session or may be included in the existing sessions. All abstracts will be equally and fairly reviewed, and there is no confirmed number of late-breaking abstracts to be accepted.

Except for the above, the guideline and the topic categories for the abstract submission stand the same.
